

# EMERGENETICS®

## EMERGENETICS

(emerge • genetics)

Patterns of thinking and behaving that emerge from your genetic blueprint and life experiences.

|                          |                  |  |                        |                |
|--------------------------|------------------|--|------------------------|----------------|
| Reasoned                 | Questioning      |  | Inventive              | Global         |
| Rational                 | Critical thinker |  | Original               | Unconventional |
| Intellectual             | Investigative    |  | Innovative             | Seeks change   |
| Objective                | Inquiring        |  | Imaginative            | Bored easily   |
| Follows logical thinking |                  |  | Intuitive about ideas  |                |
| Detailed                 | Organized        |  | Sensitive              | Compassionate  |
| Disciplined              | Traditional      |  | Giving                 | Caring         |
| Methodical               | Predictable      |  | Friendly               | Empathic       |
| Rule follower            | Practical        |  | Supportive             | Feeling        |
| Follows process          |                  |  | Intuitive about people |                |
